

This is an amazing documentary released from the Vatican last week. The impact of it touches the heart and instills compassion for those who live in poverty and contributes the concern of climate change.

This letter written by Pope Francis is addressed to “all people of good will: urging an interconnected vision for humanity and the planet. It is an 80-minute video of how ordinary people can make their vision a reality.

The word of God is living and effective, discerning reflections and thoughts of the heart – Hebrews 4:12

Because our God is a living God, the Word of God message is vibrant, dynamic, energizing and productive. God's Word is present in the Scriptures, in the celebration of Eucharist, in all people, in all creation

The vital power of God's Living Word exits touches the depth of our soul weaving through any obstacle and inspiring sacred attitudes.

Astonishing life-giving things happen when we are alert to God's word alive in the Scriptures, others creation and events. God equips us for every good work.

In our daily lives we journey in the presence of God, in the presence of the risen Christ, the Light who guides and illumines our path.

This week we reflect: How does Scripture touch us daily with grace to "be competent, equipped for every good work?"

– Sister Janice
